

IN THE SPECIFICATION:

Page 1, between lines 1 and 2, insert:

This application is a filing under 35 USC 371 of
PCT/IB2002/005666 filed Dec. 30, 2002.

Page 3, lines 24-29:

It is therefore an object of the present invention to provide a device for measuring the relative orientation of at least a first object with respect to a second object, in particular but not exclusively limbs of the human body, which is structurally easy and ~~not expensive~~ inexpensive to ~~make~~ manufacture, and that does not present the drawbacks of the prior art.
